CHAPTER 13 HAZARDOUS SUBSTANCE SPILLS

3-13-1 Purpose	3-13-4 Cleanup Costs
3-13-2 Definitions	3-13-5 Notifications
3-13-3 Cleanup Required	3-13-6 Police Authority

3-13-1 PURPOSE. In order to reduce the danger to the public health, safety and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

3-13-2 DEFINITIONS. For purposes of this Chapter the following terms are defined:

1. "Cleanup" shall mean actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381(1))

2. "Hazardous condition" shall mean any situation involving the actual, imminent or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381(4))

3. "Hazardous substance" shall mean any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. "Hazardous substance" may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381(5))

4. "Responsible person" shall mean a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

3-13-3 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the City Council and immediately seek any State or Federal funds available for said cleanup.

3-13-4 CLEANUP COSTS. The responsible person shall be strictly liable for all of the following:

1. The reasonable cleanup costs incurred by the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.;
2. The reasonable costs incurred by the City to evacuate people from the area threatened by a hazardous condition caused by the person; and
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.

3-13-5 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the Police Chief or Police Department of the occurrence of a hazardous condition as soon as possible but not later than six (6) hours after the onset of the hazardous condition or discovery of the hazardous condition. The Police Chief shall immediately notify the Department of Natural Resources.
2. Any other person who discovers a hazardous condition shall notify the Police Chief or Police Department, which shall then notify the Department of Natural Resources.

3-13-6 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and
2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

e. The application for the housemover's license shall be made to the mayor. The mayor shall grant the license if in his opinion the route in said application is the most feasible one. The license issued shall be effective only for a specified time period and for the specific route to be used to move the building.

f. The person, firm or corporation to whom a permit for moving a building is granted

shall see that all telephone, telegraph and electric light wires and poles are removed when necessary and replaced in good order, and shall be liable for the costs of the same. Where such electric, telephone or telegraph wires do not belong to the town, the holder of the permit for moving a building shall give twenty-four (24) hours notice to the owner thereof to remove such wires and the owner of such wires may either remove or direct the removal and replacing of such wires, the holder of the permit paying the reasonable costs thereof. They shall also be liable for any damage to any pavement or sidewalk, caused by moving such building. And damage to any municipality property not repaired shall be repaired by the municipality and the cost thereof recovered from the house mover on his bond.

g. Whenever any person, firm or corporation, moving a building along any street or alley, shall willfully or negligently permit said building, while in transit, to remain upon any street, alley or sidewalk, the street commissioner is hereby authorized to remove the same to any point or place where the same shall not obstruct travel or inconvenience the public. He shall keep an account of the expense of such removal and the house mover shall be liable to the municipality on his bond for such expense.

h. It shall be unlawful to allow any building for the removal of which a permit shall have been obtained, to remain upon or occupy any street, alley or sidewalk after the expiration of the time as limited in the permit. If a certificate, signed by a majority of the members of the committee on streets and alleys, that a reasonable cause exists for the permit holder failing to remove the building from the street, alley, or sidewalk within the time limit, such certificate shall be a good and sufficient defense in any action commenced under this section.

4. Junk dealers.

a. Every junk dealer shall maintain a permanent record book that shows a description of each item received, the name and address of the person from whom it was received, the quantity or weight of each item, the amount paid, and the time and date of the transaction.

Upon the complaint of any individual that a person is keeping, sheltering or harboring an illegal animal other than an illegal animal per se on premises in the City, the Police Chief shall cause the matter to be investigated and, if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering or harboring such an illegal animal in the City, the Police Chief shall order the person named in the complaint to safely remove such animal from the City, permanently place the animal with an organization or group allowed under Section 4-1-25 of this chapter to possess illegal animals, or destroy the animal, within three days of the receipt of such an order. Such order shall be contained in a notice to remove illegal animal, which notice shall be given in writing to the person keeping, sheltering or harboring the illegal animal, and shall be served personally or by certified mail. Such order and notice to remove the illegal animal shall not be required where such illegal animal has previously caused serious physical harm or death to any person, in which case the Police Chief shall cause the animal to be immediately seized or destroyed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

4. The order to remove an illegal animal other than an illegal animal per se issued by the Police Chief may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three days after receipt of the order contained in the notice to remove illegal animal. Failure to file such written notice of appeal shall constitute a waiver of right to appeal the order of the Police Chief.

5. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the Clerk. The hearing of such appeal shall be scheduled within seven days of the receipt of notice of appeal. The hearing may be continued for good cause. The hearing shall be confined to the record made before the Mayor or designee and the arguments of the parties or their representatives, but no additional evidence shall be taken. After such hearing, the Council may affirm or reverse the order of the Police Chief. Such determination shall be contained in a written decision and shall be filed with the Clerk within three days after the hearing or any continued session thereof.

6. If the Council affirms the action of the Police Chief, the Council shall order in its written decision that the owner remove such animal from the City, permanently place such animal with an organization or group allowed under Section 85.25 to possess illegal animals or destroy it. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the notice of removal. If the original order of the Police Chief is not appealed and is not complied with within three days or the order of the Council after appeal is not complied with within three days of its issuance, the Police Chief or designee is authorized to seize and impound such illegal animal. An animal so seized shall be impounded for a period of seven days. If at the end of the impoundment period, the person against whom the decision and order of the Council was issued has not petitioned the Greene County District Court for a review of said order, the Mayor or Mayor's designee shall cause the animal to be disposed of by sale, permanently place such animal with an organization or group allowed under Section 4-1-25 of this chapter to possess illegal animals or destroy such animal in a humane manner. The person owning, keeping, sheltering or harboring the animal in question shall be given not less than 72 hours written notice of the time and place of said hearing. Said notice shall set forth the description of the animal in question and the basis for the allegation of dangerousness. The notice shall also set forth that if the animal is determined to be dangerous, the owner may be required to remove it from the City or allow it to be destroyed. The notice shall be served upon any adult residing at the premises where the animal is located, or may be posted on those premises

if no adult is present to accept service. A notice that a dog is a dangerous animal may include as an alternative an allegation that a dog is a vicious dog under Section 85.01 and 85.23 and the hearings shall proceed together under this section.

2. 3. The order to remove or destroy a dangerous animal issued by the Mayor or designee may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three days after receipt of the order to remove or destroy the dangerous animal. The hearing of such appeal shall be scheduled within seven days of the receipt of notice of appeal. The hearing may be continued for good cause. The hearing shall be confined to the record made before the Mayor or designee and the arguments of the parties or their representatives, but no additional evidence shall be taken. After such hearing, the Council may affirm or reverse the order of the Police Chief. Such determination shall be contained in a written decision and shall be filed with the Clerk within three days after the hearing or any continued session thereof.

5. If the Council affirms the action of the Mayor or designee, the Council shall order in its written decision that the person owning, sheltering, harboring or keeping such dangerous animal remove such animal from the City or cause it to be destroyed in a humane manner. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the order to remove or destroy. If the original order of the Mayor or designee is not appealed and is not complied with within three days or the order of the Council after appeal is not complied with within three days of its issuance, the Mayor or designee is authorized to seize and impound such dangerous animal. An animal so seized shall be impounded for a period of seven days. If at the end of the impoundment period, the person against whom the decision and order of the Mayor or designee or the Council was issued has not petitioned the Greens County District Court for a review of said order, the Mayor or designee shall cause the animal to be destroyed in a humane manner.

6. Failure to comply with an order of the Mayor or designee issued pursuant hereto and not appealed or of the Council after appeal, is a misdemeanor.

7. Any animal which is alleged to be dangerous and which is under impoundment or quarantine at the animal shelter shall not be released to the owner, but shall continue to be held at the expense of the owner pending the outcome of the hearing. 6-2-5 MOWING OF PROPERTIES. If the property owner does not adhere to the uniform height specifications within a reasonable time, the City or their agents may mow any property that is not cut to the specifications in this ordinance.

6-2-6 METHOD OF SERVICE. Annual publication of this ordinance in the local newspaper and on SCAT in early April every year will serve as notice to property owners.

6-2-7 CHARGES AND PENALTY. Any property not mowed as specified in this Ordinance, as determined by city officials, may be mowed by the City or its agents at a charge of \$75.00 per hour per person for mowing, plus any costs to repair equipment damaged by such mowing, plus a surcharge of one hundred dollars (\$100.00) will be charged to the property owner. 6-3-3 CLEANING SNOW, ICE, AND ACCUMULATIONS. It shall be the duty of the owner to keep sidewalks abutting the owner's property clear of the natural accumulations of snow or ice. If the owner fails to do so within twenty four (24) hours after deposit of accumulation, the Mayor may have the natural accumulations of snow or ice removed without notice to the property owner. The Mayor shall give the Council an itemized and verified statement of the removal costs and a legal description of the property at the next regular Council meeting. The costs shall be reviewed by the Council, and if found correct, shall be assessed against the property as taxes. The City Clerk shall be directed to certify the costs to the County Treasurer for collection as provided in Section 364.12 of the Code of Iowa.

(Code of Iowa, Sec. 364.12(2b) and (2e))

As provided in Section 364.14, Code of Iowa, in the event the owner of property abutting any public sidewalk fails or refuses to perform any act required of them by this Ordinance and in the event an action is brought against the City for personal injuries alleged to have been caused by a defect in or the condition of said sidewalk, the City may notify in writing the said abutting owner that it claims the injury was caused by their negligence and/or their failure to repair the defect or eliminate the condition complained of. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend.

A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or condition or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage

or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

6-3-6 ORDERING SIDEWALK IMPROVEMENTS. The City Council may order the construction, reconstruction, repair, or replacement of permanent sidewalks upon any street or court. If, after the expiration of the thirty (30) days as provided in the notice, the required work has not been done or is not in the process of completion, the Mayor shall order the work to proceed to repair, replace, or reconstruct the sidewalk. Upon completion of the work, the Mayor shall submit to the Council an itemized and verified statement of expenditures for material and labor, and the legal description of the property abutting the sidewalk on which work has been performed. These costs shall be assessed to the property as taxes. The City Clerk shall be directed to certify the costs to the County Treasurer for collection as provided in Section 364.12 of the Code of Iowa.

(Code of Iowa, Sec. 364.12(e))

6-3-8 NOTICE OF INABILITY TO REPAIR OR BARRICADE. It shall be the duty of the owner of the property abutting the sidewalk, or of the contractor or agent of the owner, to notify the City immediately in the event the owner is unable to make necessary sidewalk improvements or to install or erect warnings and barricades as required by this chapter.

6-3-9 STANDARD SIDEWALK SPECIFICATIONS. Sidewalks constructed, repaired, or replaced under the provisions of this chapter shall be of the following construction and meet the following standards:

1. Portland cement concrete shall be the only material used in the construction and repair of sidewalks unless otherwise authorized by the City Council.

2. Sidewalks shall be on one-course construction.

3. Concrete may be placed directly on compact and well-drained soil. Where soil is not well drained, a four (4) inch sub-base of compact, clean, coarse gravel, sand, or cinders shall be laid. The adequacy of the soil drainage is to be determined by the Director of Public Works.

4. The sidewalk bed shall be graded to the established grade.

Each curb cut or ramp shall be at least thirty (30) inches wide, shall be sloped at not greater than one inch of rise per twelve (12) inches lineal distance, except that a slope no greater than one inch of rise per eight (8) inches lineal distance may be used where necessary, shall have a nonskid surface, and shall otherwise be so constructed as to allow reasonable access to the crosswalk for physically disabled persons using the sidewalk.

(Code of Iowa, Sec. 216C.9)

11. All sidewalk improvements on public property, whether performed by the owner of the abutting property or by the City, shall be performed under the supervision and inspection of the City Director of Public Works, and in accordance with the standard sidewalk specifications set forth in this chapter.

All such permits shall be issued without charge and a copy thereof, with the application, shall be filed and preserved in the office of the City Clerk. The permit shall state when the work is to be commenced and when the work is to be completed. The time of completion for the sidewalk improvements may be extended by the City Council. All permits for sidewalk improvements not ordered by resolution of the City Council shall be issued in compliance with this chapter. The City Council may withhold the issuance of any permit for any sidewalk improvements for a sufficient period to determine the

necessity for the proposed improvements or when weather conditions will adversely affect the sidewalk improvements.

6-3-11 FAILURE TO OBTAIN PERMIT; REMEDIES. Whenever any sidewalk improvements are made that do not conform to the provisions of this chapter and with the specifications, or when any sidewalk improvements are made without a permit, the Mayor shall serve notice to obtain a permit upon the property owner and upon the contractor doing the work. If the sidewalk is in the course of construction, the notice shall order the work to stop until a permit is obtained and the work is corrected to comply with the specifications. If the sidewalk work has been completed, the owner shall obtain a permit immediately and perform any needed corrections within five (5) days from receipt of the permit. If the owner fails to comply with this notice, the Mayor shall have the work completed and the costs assessed to the property owner as provided in this chapter.

6-3-12 INSPECTION AND APPROVAL. Upon final completion, the Director of Public Works shall inspect the work and may order corrections if the work does not meet specifications. When the work does meet all requirements of this chapter, the specifications, and the permit, the Director of Public Works shall indicate this on both copies of the permit.

6-3-13 BARRICADES AND WARNING LIGHTS. Proper warning lights and barricades shall be placed to protect persons from materials, equipment, and dangerous conditions. Placement and maintenance of adequate warnings is the responsibility of the constructor, the owner, and the lessee of the property.

(Code of Iowa, Sec. 384.38)

6-3-16 NOTICE OF ASSESSMENT FOR REPAIR OR CLEANING COSTS. When the Mayor submits a bill for sidewalk improvements or for removal of accumulations as provided in this chapter, the City Clerk shall send a notice of such facts to the owner of the abutting property. The notice may be given either by personal service or by certified mail to the last known address of the owner. The notice shall contain a statement of the work performed, the cost of the work that is being assessed, a description of the property affected, and the fact that the person may pay the amount assessed within thirty (30) days without interest or penalty. The notice also shall indicate that the person may object to such assessment and given the place and time at which Council will

hear such objections. The time set for hearing shall be at least fifteen (15) days after the service or mailing of the notice.

(Code of Iowa, Sec. 384.50)

6-3-17 HEARING AND ASSESSMENT. At the time and place designed in the Notice, the Council shall consider all objections to the assessment, correct all errors or omissions, and adopt a corrected list as the amounts to be assessed against the property.

(Code of Iowa, Sec. 384.51)

The unpaid assessments shall constitute a lien against the property and shall be collected by the County Treasurer in the same manner as other taxes. Any assessment that exceeds \$100 may be paid in installments as set by Council, not exceeding ten, in the same manner and at the same interest rates as for special assessments under Chapter 384, division IV, Code of Iowa. No interest shall be charged for assessments, or parts thereof, paid within thirty (30) days of the time the Council determined the final amounts.

(Code of Iowa, Sec. 384.60)

6-6-1 ENFORCEMENT. The Director of public utilities shall supervise the installation of water service pipes and their connections to the water main and enforce all regulations pertaining to water services in this City in accordance with this chapter. This chapter shall apply to all replacements of existing service pipes as well as to new ones. The City Council shall make such rules, not in conflict with the provisions of this chapter, as needed for the detailed operation of the waterworks. In the event of an emergency the Director may make temporary rules for the protection of the system until due consideration by the City Council may be had.

(Code of Iowa, Sec. 372.13(4))

6-6-2 ADOPTION OF STATE PLUMBING CODE. The installation of any water-service pipe and any connection with the municipal water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of the State Plumbing Code as amended and as published by the Iowa Department of Public Health, which is hereby adopted. An official copy of the State Plumbing Code as adopted and a certified copy of this Ordinance are on file in the office of the City Clerk for public inspection.

6-6-3 LICENSE REQUIRED. All installation of water service pipes and connections to the municipal water system shall be made by a plumber licensed by this City. The Director shall have the power to suspend the license of any plumber for violation of any of the provisions of this Ordinance. A suspension, unless revoked, shall continue until the next regular meeting of the City Council. The Director shall notify the plumber immediately by personal written notice of the suspension, the reasons for the suspension, and the time and place of the City Council meeting at which the plumber will be granted a hearing. At this City Council meeting the Director shall make a written report to the City Council stating the Director's reasons for the suspension, and the City Council, after fair hearing, shall revoke the suspension or take any further action that is necessary and proper.

6-6-4 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the

public water supply if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

6-6-5 PERMIT. Before any person, firm, corporation or other association shall make a connection with the public water system, a written permit must be obtained from the Director. The application for the permit shall be filed with the Director on blanks furnished by the Director. The application shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. No different or additional uses shall be allowed except by written permission of the Director. The Director shall issue the permit, bearing the Director's signature and stating the time of issuance, if the proposed work meets all the requirements of this Ordinance and if all fees required under this Ordinance have been paid. Work under any permit must be begun within six (6) months after it is issued. The Director may at any time revoke the permit for any violation of this Ordinance and require that the work be stopped. The owner or plumber may appeal such action in the manner provided in Section 6-6-3 of this Ordinance.

(Code of Iowa, Sec. 372.13(4))

6-6-6 FEE FOR PERMIT. Before any permit is issued the person who makes the application shall pay a fee of \$75.00 to the (City Clerk) to cover the cost of issuing the permit and supervising, regulating and inspecting the work.

6-6-7 WATER SUPPLY CONTROL. The plumber who makes the connection to the municipal water system shall install a main shut-off valve of the inverted key type on the water-service pipe near the curb with a suitable lock of a pattern approved by the Director of Public Works. The shut-off valve shall be covered with a heavy metal cover having the letter "W" marked thereon, visible and even with the pavement or ground.

The plumber also shall install a shut-off valve and waste cock on every service pipe inside the building near the entrance of the water-service pipe into the building; this must be located so that the water can be shut off conveniently and the pipes drained. Where one service pipe is installed to supply more than one customer, there shall be separate shut-off valves inside the building for each customer so that service to one customer can be shut off without interfering with service to the others.

6-6-8 MAKING THE CONNECTION. Any connection with the municipal water system must be made under the direct supervision the Director of Public Works or his authorized assistant. All taps in the water main must be at least (12) inches apart and on the side and near the top and not in any case within 18 inches of the hub.

(Code of Iowa, Sec. 372.13(4))

6-6-9 EXCAVATIONS. Excavations to do work under this Ordinance shall be dug so as to occasion the least possible inconvenience to the public and to provide for the passage of water along the gutter. All such excavations shall have proper barricades at all times, and warning lights placed from one-half hour before sunset to one-half hour after sunrise. In refilling the excavation

the earth must be laid in layers and each layer tamped thoroughly to prevent settlement, and this work, and any street, sidewalk, pavement or other public property that is affected, must be restored to as good a condition as it was previous to the excavation. The plumber must maintain the affected area in good repair to the satisfaction of the City Council for three months after refilling. All water service pipes must be laid so as to prevent rupture by settlement or freezing. No excavation shall be made within six (6) feet of any laid water or sewer pipe while the ground is frozen, and no water or sewer pipe shall be exposed to frost, except by special written permission of the Director.

6-6-10 INSPECTION AND APPROVAL. All water-service pipes and their connections to the municipal water system must be inspected and approved in writing by the Director before they are covered, and the Director shall keep a record of such approvals. If the Director refuses to approve the work, the plumber or owner must proceed immediately to correct the work so that it will meet with the Director's approval. Every person who uses or intends to use the municipal water system shall permit the Director or the Director's authorized assistants to enter the premises to inspect and make necessary alterations or repairs at all reasonable hours and on proof of authority.

(Code of Iowa, Sec. 372.13(4))

6-6-11 COMPLETION BY THE CITY. Should any excavation be left open or partly refilled for twenty-four (24) hours after the water-service pipe is installed and connected with the municipal water system, or should the work be improperly done, the Director shall have the right to finish or correct the work, and the City Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before the plumber can receive another permit, and the plumber's bond required by the Plumbing Ordinance shall be security for the assessment. If the property owner is assessed, such assessment shall be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12(3)(h))

6-6-12 METER ACCURACY AND TEST. All water shall be supplied through meters that accurately measure the amount of water supplied to any building. The Director or the Director's assistant shall make a test of the accuracy of any water meter at any time when requested in writing. If it is found that such meter overruns to the extent of 10 percent or more, the cost of the tests shall be paid by the City and a refund shall be made to the customer for overcharges collected since the last known date of accuracy but not for longer than 6 months. If the meter is found to be accurate or slow less than 10 percent fast, the patron shall pay the reasonable costs of the tests.

The Owner of the property served by a building sewer shall be responsible for the operation, maintenance, repair, blockage, surface replacement, and any damage resulting from operation, maintenance repair and blockage of said building sewer, from the point of connection with the building drain to the Public Sewer.

6-8-5 USE OF THE PUBLIC SEWERS.

1. No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, including interior and exterior foundation drains, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Applications may be cancelled and/or sewer service discontinued by the City for any violation of any rule, regulation or condition of service, and especially for any of the following reasons:

a. Misrepresented in the application as to the property or fixtures to be serviced by the sanitary sewer system.

b. Non-payment of bills.

c. Improper or imperfect service pipes and fixtures, or failure to keep same in suitable state of repair.

2. Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Director. Industrial cooling water or unpolluted process waters may be discharged, on approval of the Director, to a storm sewer, combined sewer, or natural outlet.

3. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

a. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

b. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) mg/l as CN in the wastes as discharged to the public sewer.

c. Any waters or wastes having a ph lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

Where necessary in the opinion of the Director, the owner shall provide at the owner's expense, such preliminary treatment as may be necessary to (1) reduce the biochemical oxygen demand to 300 parts per million by weight, or (2) reduce the suspended solids to 350 parts per million by weight, or (3) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Director and no construction of such facilities shall be commenced until said approvals are obtained in writing.

4. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Director that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Director will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

a. Any liquid or vapor having a temperature higher than one hundred fifty (150) F (65 C).

b. Any water or wastes containing fats, wax, grease or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) F (0 and 65 C).

f. Any waters or wastes containing phenols or other taste-or-odor-producing substances, -in such concentrations exceeding limits which may be established by the Director as necessary after treatment of the composite sewage, to meet with requirements of the State, Federal, or other public agencies with jurisdiction for such discharge to the receiving waters.

g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Director in compliance with applicable State or Federal regulations.

h. Any waters or wastes having a pH in excess of 9.5.

(2) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

(3) Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

(4) Unusual volume of flow or concentration of waters constituting "slugs" as defined herein.

j. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in 6-2-5(4), and which in the judgment of the Director, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Director may:

a. Reject the wastes,

b. Require pretreatment to an acceptable condition for discharge to the public sewers.

c. Require control over the quantities and rates of discharge, and/or

d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provision of 6-8-5(10) of this article.

If the Director permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Director, and subject to the requirements of all applicable codes, Ordinances, and laws.

6. Grease, oil, and sand interceptors shall be provided when, in the opinion of the Director, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Director, and shall be located as to be readily and easily accessible for cleaning and inspection.

7. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

8. When required by the Director, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Director. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

9. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this Ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24 hour composite of all outfalls where pH's are determined from periodic grab samples).

10. No statement contained in this article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment, therefore, by the industrial concern.

6-8-6 PROTECTION FROM DAMAGE.

1. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

2. While performing the necessary work on private properties referred to in 6-8-7(1), the Director or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees and the City shall indemnify the company against loss or damage to its property by the City employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions as required in Section 6-8-5(8).

3. The Director and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. In addition, each contributor shall pay a user charge rate for operation and maintenance including replacement of forty-five cents (\$0.45) per one hundred (100) gallons of wastewater contributed above one thousand (1,000) gallons per month. These amounts shall increase 10% for the next four years, ending 2021.

b. For those contributors who contribute wastewater the strength of which is greater than normal domestic wastewater as defined in Section 6-9-1, an extra strength surcharge in addition to the normal user charge will be collected. \$0.72 per pound of CBOD5

\$0.72 per pound of TSS

\$2.88 per pound of TKN

c. Any user which discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the city's treatment works or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance, or replacement of the treatment works, shall pay for such increased costs. The charge to each such user shall be as determined by the City Council.

6. Determination of Quantity Used.

a. The user charge shall be applied to the quantity of water used by each contributor of sanitary sewerage for each individual water meter contributing to said sewer system as determined by monthly water meter readings of the municipal waterworks of the city, and by such privately owned water supplies, the quantity of water used and discharged into the sewerage system of said city shall be determined to the satisfaction of the council and at the expense of the owner of unmetered water supply. If the estimated quantity of water from any unmetered water supply is estimated to be in excess of an average of four thousand five hundred (4,500) gallons per month, the council may require that such water supply be metered at the expense of the owner of such water supply.

b. Where flow measurement devices are required of persons contributing industrial wastes to the sewer system, the city may authorize the quantities shown on the permanently recorded records of such flow measurement devices to be used as the basis of determination of the rate to be paid by the person.

7. Special Agreements. The user charge ordinance shall take precedence over any terms or conditions or agreements or contracts which are inconsistent with the requirements of section 204(b)(1)(A) of the Act and 40 CFR 35.2140 dated February 17, 1984.

8. Review of User Charge System. The City shall review the user charge system annually and revise user charge rates as necessary to ensure that the system generates adequate revenues to pay the costs of operation and maintenance including replacement and that the system continues to provide for the proportional distribution of operating and maintenance including replacement costs among users and user classes.

9. Notification of Rate. The city will notify each user at least annually, in conjunction with a regular bill, of the rate being charged for operation, maintenance including replacement of the treatment works.

6-9-11 DETERMINATION AND PAYMENT OF SEWER RENT FROM PREMISES WITH PRIVATE WATER SYSTEMS. Users whose premises have a private water system shall pay a sewer rent in proportion to the water used and determined by the City Council either by an estimate

agreed to by the user or by metering the water system. The rates shall be the same as provided in Section 6-9-10 applied as if a City water bill were to be paid. Rent shall be paid at the same time and place as provided in Section 6-9-10.

(Code of Iowa, Sec. 384.84(1))

6-9-12 RESPONSIBILITY FOR PAYMENT. The owner of a property receiving water services shall be responsible for the payment of all charges for City utilities delivered to that property; provided, however, that the City may, by written agreement with an owner who leases or rents property to a tenant (or who otherwise allows someone else to live in the premises), require a reasonable deposit from the tenant or other occupant for all charges for water delivered to the property during the tenant's or other occupant's occupancy and agree to try to collect those charges from the tenant or other occupant by billing the tenant or other occupant for the water services to the property and, if necessary, turning off water services to the property and using the tenant's or other occupant's deposit for payment on such bill. If any charges remain unpaid after those procedures, the City will notify the owner of the amount due the City.
